

DEV SAINI

AI & MACHINE LEARNING DEVELOPER | PYTHON · DATA SCIENCE · DATA ANALYTICS

Jaipur, Rajasthan, India | devs08107@gmail.com | +91 8764451718 | github.com/sainidev1211 | linkedin.com/in/dev-sainii | Portfolio: myportf-six.vercel.app

SUMMARY

Computer Science (Artificial Intelligence & Machine Learning) undergraduate at Chandigarh University, specializing in AI/ML with strong hands-on Python development experience across NLP pipelines, data processing, data analytics, and backend scripting. IBM-certified in Python for Data Science, AI & Development. Built AI-driven applications including a health-risk-prediction engine and an NLP-based fact-checking system, with working knowledge of Excel-based data analysis and dataset-integration workflows.

TECHNICAL SKILLS

AI / ML	Languages & Analytics	Tools & DB
- Machine Learning, NLP - TensorFlow, OpenAI API - Generative AI	- Python - MS Excel & Data Analytics - Java, C, C++, JavaScript	- MongoDB, MySQL, RDBMS - Git/GitHub, VS Code, Postman - Data Structures & Algorithms, OOP

PROJECTS

- Swasthy — AI-Powered Healthcare Ecosystem (Flagship Project)** Jan 2026 – Present
- Built the AI medication-safety and health-risk-prediction logic using Python-based rule engines and data analysis.
- Truthify — AI Fact-Checking Platform** 2026
- Developed source-verification logic in Python using NLP and text-similarity techniques to flag misinformation.
- Suroor — Music Streaming Platform (Spotify Clone)** 2025
- Used Python for data processing and analytics, integrating a real-world Kaggle music dataset into the application.
- Virtual Healthcare & Appointment Management System** 2025
- Implemented backend scripts and Python data handling for the medical-record management module.

PATENT & RESEARCH PUBLICATION

- Design Patent — AI-Powered Healthcare Dashboard & Monitoring System (Swasthy):** filed for the dashboard interface and interaction design, covering the medication safety alert system, family health-monitoring dashboard, and integrated medicine-reminder interface.
- Research Publication (Springer):** “AI-Powered Medical Report Analyzer and Virtual Health Assistant” — a comprehensive research report.

EDUCATION

- B.E. Computer Science (AI & Machine Learning)** — Chandigarh University 2024 – 2028 | CGPA: 7.3
- Senior Secondary (Class XII), Math & Science** — Raj Career Inst. School 2022 – 2023
- Class X, Mathematics & Science Foundation** — Gautam Senior Secondary School 2020 – 2021

CERTIFICATIONS

- Python for Data Science, AI & Development — IBM
- Generative AI & AI for Business (15+ skills) — LinkedIn Learning
- Mathematics for Machine Learning — Coursera
- Prompt Engineering Specialization — Coursera (Vanderbilt University)
- Relational Database Management System (RDBMS) — IBM
- Academic Research Foundations — LinkedIn Learning
- Microsoft Certification Course — LinkedIn Learning
- RSCIT (Rajasthan State Certificate in IT) — Govt. of Rajasthan:** covers computer fundamentals and MS Office with a strong emphasis on Excel & Data Analytics, plus internet & digital literacy.

ADDITIONAL INFORMATION

Languages: English, Hindi

Awards & Activities: Patent applicant · Published researcher (Springer) · Active GitHub contributor · Hackathon participant · Daily coding & project building
