

Frequently Asked Questions

General System Guide & Support FAQ • 3 Min Read

1. General Platform Functionality

Q: How does the ApplyOne automatic matchmaking system operate?

A: Our backend scans and matches candidate resume skills against open internships and entry-level career postings. It automatically handles submission filters according to your expected packages.

Q: Can I customize my resume upload for different roles?

A: Yes. You can re-run step-2 of the signup wizard or upload a revised PDF from your candidate dashboard to update your profile assets.

2. Security & Data Protection

Q: Is my personal information and resume database secure?

A: Yes. All client profiles are stored inside Supabase databases protected under strict Row-Level Security (RLS) policies. Only you and matched recruiter accounts have permission to view your documents.

3. Pricing & Billing

Q: What is your subscription cancellation model?

A: You can click "Cancel Subscription" inside the Subscriptions dashboard page at any time. Your access benefits will remain active until the end of your current monthly billing period.
