

2026 Student Internship Map

Timeline Roadmap to Summer Placements • 12 Min Read

1. Phase 1: Preparation (July - August)

This phase focuses on building a baseline profile and preparing your application assets before roles open.

- Asset Build: Compile your project repos, structure your resume draft, and optimize your LinkedIn settings.
- Automation setup: Connect your profile parameters and register expected package filters inside the ApplyOne wizard dashboard.

2. Phase 2: High Dispatch Season (September - October)

During this window, global finance, consulting, and tech roles open their main matching application tracks.

- Daily match logs: Keep your dispatch streams active. Check and refresh matching jobs daily to secure early match status.
- Early submission: Apply within the first 48 hours of role listings to maximize early OAs (Online Assessments).

3. Phase 3: Selection & Offers (November - December)

Interviews, case runs, and final manager rounds are held in this phase.

- Behavioral run: Review company values and prepare custom scenarios mapping to the STAR framework.
- Negotiation: Review current market standards for monthly stipend rates and expected benefits.
